## MAKE YOUR OWN SNOW GLOBE CHRISTMAS CARDS!

Why not make your own magical snow globe cards? Simply follow the steps below to create a unique Christmas card design for your friends and family. Remember to ask an adult to help out when using scissors!

### YOU'LL NEED:

- ★ 2 sheets of A4 card, preferably in different colours
- ★ A glue stick
- ★ Scissors
- ★ A photograph of you and/or your family
- ★ Glitter or a white paint pen
- ★ Pens or paint pens

### STEP 1

Fold one sheet of A4 card in half, widthways.

### STEP 2

Cut out this shape as the base of your snow globe. Use it as a template to cut the other sheet of coloured card to shape, and use a glue stick to attach it to the front of your card, just below the middle.

### STEP 3

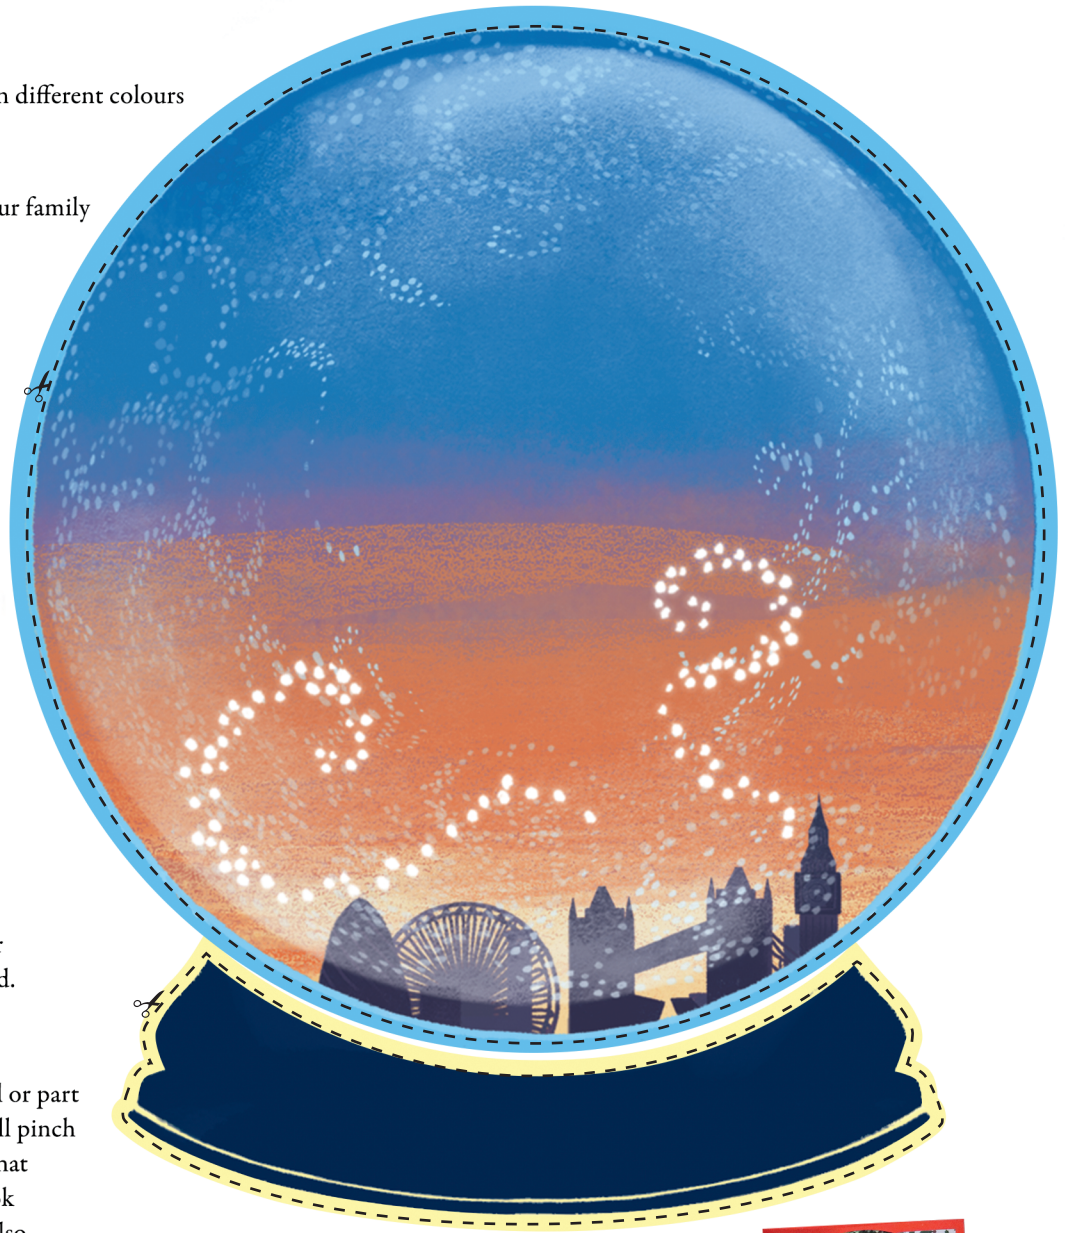

Cut out this shape as your globe. Use it as a template to cut your photograph to size, then attach your photo-globe to the base on your card.

### STEP 4

Spread a very thin layer of glue to all or part of your photo, and then using a small pinch of glitter, gently sprinkle it over so that some of it sticks to the photo, to look like snow. Alternatively, you could also use a white paint pen to draw tiny dots on the photo to create the same kind of effect.

### STEP 5

Add a 'Happy Christmas' message to the top of the card, and any other decoration you like around the edges and inside.

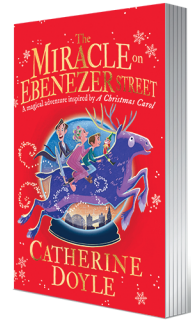

THE END RESULT SHOULD LOOK SOMETHING LIKE THIS
