WEIGHING THE  
BEWILDERING  
COMPLEXITIES

**Paul Davis** lives in London. He attempts to draw, paint, write and photograph every day with the intention of describing the mad and beautiful state of the human species. He enjoys being bombarded by ungraspable science, unfathomable behaviours and is intrigued by the as yet unknown. He says he's very happy living on this outrageously lucky speck of dust called Earth. Someone once said of his work: 'He teases from the inane.'
